About

Corpus Christi College is a leading Catholic Secondary School, focused on future-proofing our students, developing their skills to connect with others and challenging them to be curious and creative. Our students are encouraged to explore a diverse curriculum offering. We are also an Apple Distinguished School that integrates digital activities into all learning areas in order to fulfil our College Vision for Learning - *Ignite the Spirit* so our learners learn in innovative and transformative ways.

Our online learning journey

Corpus Christi College adopted Education Perfect initially as a learning platform for our French, Indonesian and Italian language learners in 2013, before expansion to other learning areas, such as Science, in 2017, and adopting the full subject suite from 2021.

This year alone, our students have answered over 2 million questions!

Why Education Perfect (EP)

Education Perfect allows students to both learn and revise content in an engaging way, whilst providing teachers with valuable data on student engagement in their learning. Students value the self-paced learning and immediate feedback that Education Perfect provides. Teachers value the ability to tailor their digital lessons and learning activities to their learning intentions, in addition to the ability to create assessments with incorporated marking criteria.

“...Students value the self-paced learning and immediate feedback that Education Perfect provides.”
