About

Living Waters Spanish has been serving students and families for 15 years. Students consistently pass standardized tests for college credit, such as the CLEP and AP exams.

Our online learning journey

Living Waters Spanish began as a local school in Oregon, USA, and is now fully online, serving students from across the US, and internationally.

Living Waters Spanish has been an avid user and supporter of Education Perfect since 2012.

Why Education Perfect (EP)

We were searching for a comprehensive tool to help students improve their Spanish, and found EP. Since then, Living Waters Spanish has subscribed to EP's entire suite of curricula. Although we only teach Spanish and English, subscribing to the full suite is an added bonus for our students in their other subject areas.

“The most dynamic and reliable Content Management System and curricula on the planet.”

Brad Riegg
Spanish Teacher
Living Waters Spanish

Impact

- Students learn significantly more than before engaging with EP.
- Teachers have more time to be creative and extend learning past the essentials.
- Parents and students love the personalized, audio and written feedback teacher can give through EP.
- Lessons are easily tailored to meet the specific needs and goals of all students.
- Assessments are simple and quick to create, and the metrics EP offers, including all individual answers students give, are state of the art.
- EP has transformed our teachers' and students' learning experience.
