About

Moreton Bay College consistently rates as one of Brisbane's top-performing academic schools. The College is an eSmart school and places great emphasis on the information technology environment in which our staff and students work and learn.

Member of the following associations:

- Independent Schools of Queensland
- History Teachers Association of Victoria
- Geography Teachers Association of QLD
- QLD Economic Teachers' Association

Our online learning journey

Moreton Bay College started working with Education Perfect in 2011 through the Languages faculty. The Science department followed in 2016.

In 2018, the Humanities department trialled Education Perfect and subsequently subscribed.

Why Education Perfect (EP)

Our department chose to adopt EP to enhance student learning. We believe this digital learning platform is a useful resource to complement the suite of learning tools we use in the classroom.

EP offers engaging curriculum content and skills for Humanities students that is regularly updated to reflect the contemporary nature of the Australian curriculum. The ability to set and track individual learning tasks or to work together as a whole class provides both teacher and students with flexible learning opportunities and rich feedback on learning.

Allison Robertson
Head of Department- Humanities

“EP is a dynamic digital learning platform that responds to the needs of the education industry while keeping teachers involved in its development.”

Allison Robertson
Humanities Teacher
Moreton Bay College

Impact

- Teachers appreciate having access to so many activities tailored to the Australian Curriculum which are also closely aligned to the various cognition levels.
- Teachers also appreciate having the opportunity to monitor student progress throughout their learning and to provide digital feedback to students.
- Students enjoy completing activities at their own pace and receiving teacher feedback by way of messages and cheers.
