About

The Winstedt School is a small school that teaches students who have various learning differences. The school is a community of specialised and dedicated teachers, therapists, and counsellors who understand students' needs for intuitive, imaginative and engaging learning.

Our online learning journey

The Winstedt School first started using EP with one of our Online Competitions.

In August 2020 The Winstedt School broadened their use of EP and signed up to the full EP suite for all their students.

Why Education Perfect (EP)

Education Perfect has been very useful to support literacy and math lessons. Teachers have been able to utilise the lesson content and assessments to provide extra support and targeted challenges for their students.

Many students have benefitted from consolidation activities within the platform that sets appropriate tasks at the students' level of mastery. Teachers have found that the 'Dash Games' as well as the point scoring system have truly supported engagement from the students, who often struggle with sustaining focus. Student achievements, as well as their misunderstandings, can be reviewed, which in turn helps teachers understand where each student is upon his or her learning journey. The platform is very easy for teachers and students to utilise alike.

“The platform is very easy to utilise for teachers and students alike.”

Ulrik Strodl
Teacher
The Winstedt School

Impact

- Students are able to review their own learning from the instant feedback which helps students understand their own learning journey.
- Students are able to engage with skill appropriate learning tasks.
- Students are more likely to stay on task when using the EP platform.
- The platform is easy to use creating more time for the teachers to focus on the students.
