## About

Christ Church Grammar School is an independent school for boys from Pre-Kindergarten to Year 12. With approximately 1,700 students, the School is a member of both the International Boys' Schools Coalition (IBSC) and the Council of International Schools (CIS).

## Our online learning journey

We started using Education Perfect for Languages in 2011 and since then, as the success of the program has grown, Science and Maths use the platform for all of our Years 7-10 students. This year alone, the students have answered over 1.7 million questions!

Our Teachers use Education Perfect for a wide variety of tasks, from homework setting, to quick tests, to designing assessments and resources, as well as for PD. We really enjoy attending the EP webinars on topics pertinent to our staff and students.

## Why Education Perfect (EP)

The School found Education Perfect to be a cost-effective solution that complemented the Senior School language courses. It has allowed the School to centralise revision work for courses and offer differentiated tasks and assessments to students. The feedback tools allow the students to get an understanding of how they are progressing with their studies, and provide our teachers invaluable insight into levels of student engagement and competency. Education Perfect has allowed Christ Church teachers to build and improve resources more efficiently and create tasks that are tailored to our curriculum.

## Impact

- Our teachers spend more time on personalised learning plans and less on admin tasks
- Teachers now have more time as a result of the vast variety of resources and automatic marking, to further support at an individual level
- Our students are extremely engaged when completing EP tasks leading to increased motivation and therefore improved progress
- The rich data EP produces provides us with easy access to up-to-date progress levels in which to share with various stakeholders
