About

Recently, Sheldon College has been rated as one of the top three academic performing schools in Queensland. With the rapid development of technology, we are seeing a new generation of learners, along with exciting opportunities for innovative teaching and learning.

Member of the following associations:

- Independent Schools Queensland

Our online learning journey

Sheldon College started working with Education Perfect in 2012 through the Languages faculty.

In 2015, the English department trialled Education Perfect and subsequently other learning areas also came on board. The College now subscribes across Languages, English, Science and Humanities.

Why Education Perfect (EP)

EP has been used at Sheldon College for many years now. The program is an impressive online teaching, learning and assessing platform which allows students to track their learning in English and Chinese.

EP provides teachers with meaningful data for analysis of their class and year level group. This allows teachers to formatively track a student's progress and development of reading comprehension, vocabulary acquisition and spelling improvement. EP allows students and teachers to differentiate learning and personalise outcomes for student success.

EP provides a wonderfully supportive team of staff who help and assist schools to implement and grow the platform. EP has developed over the years into a mature platform which is aligned with Australian Curriculum and meets the personalised needs of students and teachers.

Brenton Campbell
Head of Faculty - English and Languages

“The ability to create and assign targeted activities adds another dimension to the classroom. The students respond positively as well. Using the assessment function as a way to run spelling competitions helps too.”

Melanie King
English Teacher
Sheldon College

Impact

- The pace and speed with which data is presented to teachers is instantaneous.
- Visually, it is very engaging and fresh for students to use.
