AC French 9.0 Years 7-8

EP Curriculum Map

Years 7-8

Level Description - Years 07 and 08

In Years 7 and 8, students are beginning their learning of French language, and this will be influenced by prior learning and experiences of language learning. Students use French language to describe their personal world and interact and collaborate with teachers and peers within and beyond the classroom. Listening, speaking, reading and viewing, and writing activities are supported by scaffolding, modelling and feedback.

Students access authentic and purpose-developed spoken, written and multimodal resources which may include conversations, audio and video clips, textbooks, advertisements, blogs and magazines. They use their English literacy knowledge of metalanguage to reflect on similarities and differences between French and English language pronunciation, structures and features. They recognise that language choices reflect cultural values, beliefs and identity.

Achievement Standard - Years 07 and 08

By the end of Year 8, students use French language to interact and collaborate with others, and to share information and plan activities in familiar contexts. They respond to others' contributions, and recognise familiar gestures, questions and instructions in exchanges. They recognise relationships between spoken and written forms. They locate and respond to information in texts and use non-verbal, visual and contextual cues to help make meaning. They respond in French or English, and demonstrate understanding of context, purpose and audience in texts. They use familiar language, and modelled sentence and grammatical structures to create texts, and demonstrate understanding of how some language reflects cultural practices.

Students approximate French sound patterns, intonation and rhythms, and demonstrate understanding that French has conventions and rules for non-verbal, spoken and written communication. They comment on aspects of French and English language structures and features, using metalanguage. They demonstrate awareness that the French language is connected with culture and identity, and that this is reflected in their own language(s), culture(s) and identity.

Years 7 & 8 Content Descriptors:

Communicating in French:

Sub strand	Content descriptor	How can EP support this?
Interacting in French	AC9LF8EC01 Interact with others using modelled language to exchange information in familiar contexts about self and personal world	 Each EP Languages unit is designed to support students to be able to interact with others to exchange information in familiar contexts about self and personal world. Each unit begins with an introduction lesson to introduce key language and sentence patterns and this is followed by listening and reading comprehension lessons which model written and spoken interactions and provide students with comprehensible input. These are followed by writing and speaking lessons which support students to be able to interact in written and spoken language. Each Education Perfect languages unit contains a speaking lesson where students listen to questions and record answers, listen to answers and record questions and conversation tasks with a partner to help build their interaction skills in familiar contexts. Each Education Perfect Languages unit also contains an authentic task, some of which require the students to interact in spoken or written language. The Getting Started and Beginner units focus on topics relating to self and personal world. See the hyperlinked lessons in each unit in the content maps below.
	AC9LF8EC02 Develop language to interact in exchanges, routine, tasks and responsibilities related to classroom and interests	 EP Languages units are designed to introduce students to the necessary language to be able to interact in exchanges, routine, tasks and responsibilities related to the classroom. Getting Started Unit 5 & 6 and Beginner Unit 3 introduce expressions to support students to interact in the classroom. See the hyperlinked lessons in each unit in the content maps below.
	AC9LF8EC03	In each of the reading and listening lessons in the EP Languages units, students are exposed to lots of written and spoken input where exchange of information is modelled on the topic of organising activities relating to daily

	Engage in modelled non-verbal, spoken and written exchanges with peers to organise activities relating to daily life and school environment	 life and school environment. In the writing and speaking lessons, students are provided with lots of activities to help students develop confidence to engage in written and verbal exchanges of information
Mediating meaning in and between languages	AC9LF8EC04 Locate and process information and ideas in familiar spoken, written and multimodal texts, responding in ways appropriate to culture, context, purpose and audience. AC9LF8EC05 Develop and being to apply strategies to interpret, translate and convey meaning in French in familiar contexts	 In each Education Perfect Languages unit, there is a listening and reading lesson where students are presented with a number of different spoken, written and multimodal texts in authentic contexts and they are required to locate and process information and respond in different ways. There is also a large bank of authentic video lessons accompanied by a wide variety of activities that require students to locate and process information and ideas. The Getting Started and Beginner units cover familiar topics. These tasks require students to develop strategies to interpret and translate. See the listening, reading and video lessons hyperlinked in the content maps of each unit below.
Creating text in French	AC9LF8EC06 Create spoken, written and multimodal informative and imaginative texts using appropriate vocabulary, expressions, grammatical structures, and some textual conventions	 In the speaking, writing and authentic tasks lessons within each unit, students are required to create different types of spoken and written texts using the language they have learned from a particular unit. The authentic video lessons also provide tasks which require students to create written and recorded texts. See the hyperlinked lessons in the content map below.

Understanding Language and Culture:

Sub strand	Content descriptor	How can EP support this?
Understanding systems of language	AC9LF8EU01 Recognise and use features of the French sound system, including pitch, rhythm, stress, pronunciation and intonation, and demonstrate understanding of how these are represented in familiar contexts	 In the EP Languages units, each unit has a listening comprehension section with 8-10 listening comprehension texts, recorded by native speakers. In these activities, students are exposed to features of the French sound system including pitch, rhythm, stress and intonation. There is also a speaking section for each unit where students are required to complete a variety of speaking tasks. These tasks allow students to listen

		 back to what they have recorded and moderate their own pronunciation. The speaking lessons contain exercises to practise word level and sentence level pronunciation. The first stage of this is when students complete vocabulary lists in speaking mode, they are able to focus on the different aspects of French sound patterns as they can record their pronunciation of a word, then listen back to their recording, and compare it to a native speaker. They can repeat the word as many times as they choose in order to perfect their pronunciation. Students then complete a similar style of activity which focuses on sentence level pronunciation. See the listening and speaking lessons in the hyperlinked lessons in the content map below.
	AC9LF8EU02 Develop knowledge of, and use structures and features of, the French grammatical and writing systems to understand and create spoken, written and multimodal texts	 In each of the EP Languages units, there is a grammar section which introduces new points in each unit. In each of these grammar sections there is an introduction which explains the grammar point in detail, then there are extensive activities to practise the grammar point, starting with recognition and moving towards free production. Students use this grammar knowledge to understand written and spoken text and to create their own spoken, written and multimodal texts. See the grammar lessons linked below in the content map.
	AC9LF8EU03 Compare French language structures and features with English, using familiar metalanguage	Within the EP grammar lessons, in-depth explanations are provided of each grammar point. The explanations help students to understand similarities and differences between French and English grammar.
Understanding the interrelationship of language and culture	AC9LF8EU04 Recognise how identity is shaped by language(s), culture(s), beliefs, attitudes and values	 Cultural references are embedded throughout the EP Languages units and activities and questions have been designed to help students understand the relationship between language and culture. Teachers are encouraged to use the EP units as a springboard for further discussion about the relationship between language and culture.

EP Lesson Recommendations:

For **Year 7-8 French** we would recommend a combination of our **Getting Started and Beginner French courses** which support the suggested **Thematic Contexts for Language use** in the <u>Languages Support Resource for</u> the <u>ACARA 9.0 Curriculum</u>. We would also recommend the beginner level video content. Teachers can still assign from higher level content if appropriate. Please see the course maps below:
