Automated analytics to determine personalised learning pathways

Whole curriculum solution for Year 5-12 students

Round the clock personalised support

Loved by over 50,000 teachers in 3,000 schools

# Whaowhia te kete mātauranga

## Fill the basket of knowledge

Tēnā koe,

Education Perfect is a complete online teaching and learning solution that offers customisable content, adaptive learning programmes, data analytics, and comprehensive insights on student learning, progress, and achievement. Our mission is to humanise world-class technology to create lifelong learners, and that means providing a resource that inspires our ākonga and allows kaiako to spend more time with their students.

Our content is targeted at students from ages nine to 18 and is fully aligned with the New Zealand Curriculum – ensuring that learning is relevant, engaging, and empowering. With content across all core subjects, as well as languages, digital technology, and ESOL, EP provides a full programme of learning that can be completed in the classroom, or at home.

Our unique offering includes Science Alive Mātauranga, cross-curricular STEM content and project-based learning with a mātauranga Māori lens, and sequential kete of knowledge covering te ao Māori and te reo Māori. From these modules to our contextualised literacy lessons using original content from writers such as Tusiata Avia and Hone Tūwhare, we're committed to honouring Te Tiriti o Waitangi and helping teachers to access a truly diverse and culturally responsive learning platform.

We offer personalised support and believe that technology is only as good as the people behind its delivery. We believe in people. Our content is designed to be engaging, to inspire students to be curious, to learn for themselves, and to achieve real results. EP is created by teachers, for teachers, and we never lose sight of what it's like to be in the classroom.

Too many platforms can become confusing. Students lose time logging in and remembering how to navigate different resource banks. We have everything in one place. We keep it simple, we keep it focussed on learning.

See our website or get in touch to book a personal call. We'd love to talk about how we can help you and your students to unlock their full potential.

Ngā mihi nui,

*A Barke*

# Why choose Education Perfect?

## Real learning, real results.

Our world-class technology helps inspire your ākonga to be inquisitive and successful learners.

- **Automatic next steps**  
 Targeted learning suggestions are generated based on formative and summative assessment tasks.
- **Powerful assessment tools**  
 Secure and automated EP assessments reduce teacher marking and facilitate individualised revision.
- **Insightful data and reporting**  
 All achievement data is tracked and automatically collated into intuitive reports.

## Know your impact.

We know that you need good data to plan effectively. So our programmes provide functional data on student learning, progress, and achievement across a range of measures. Spend your time on students, not spreadsheets.

### Our data helps with:

- **Whole school and cohort level oversight**
- **Board of Trustees reporting on goals and targets**
- **Report writing**
- **Differentiation**
- **Individual Education Plans**
- **Whole school engagement insights**

## Learn any time, any place.

We believe in the power of the individual to know how they learn best. We're flexible, just like the real world. That's why our resources support both independent and collaborative learning and are always available to students. There are no limits to learning.

Automatic next steps

Whole school engagement insights

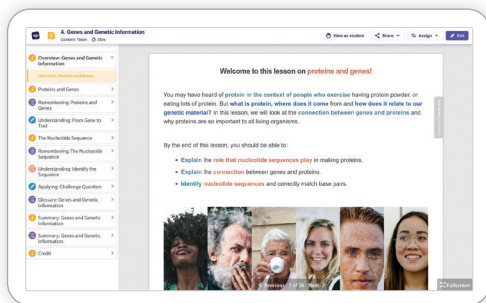

Learn anywhere

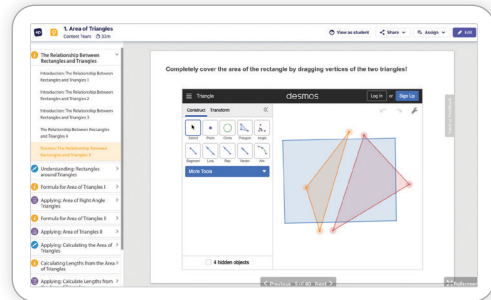

# Curriculum-aligned content

We're from the classroom, we know the pressures and challenges. That's why all of our content is fully aligned with local curricula and reviewed by experienced teachers. That means that your students are learning what they need to know, and you can customise the content further to your precise needs, knowing that the learning outcomes will meet national standards.

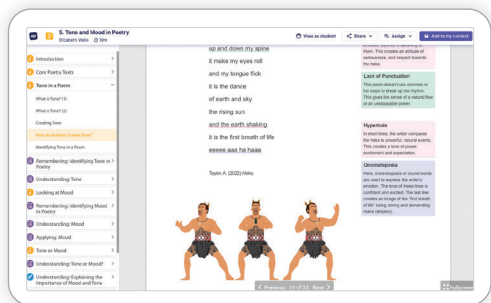

## Science

- Multi-media supported contextual lessons that provide interactive simulations, visual aids, video support, and a range of question types to improve scientific understanding.
- Comprehensive coverage of the Year 5–10 science syllabus as well as Year 11–13 biology, chemistry and physics courses, allowing students to advance and specialise in areas of strength, and progress at their ability level.

## Maths

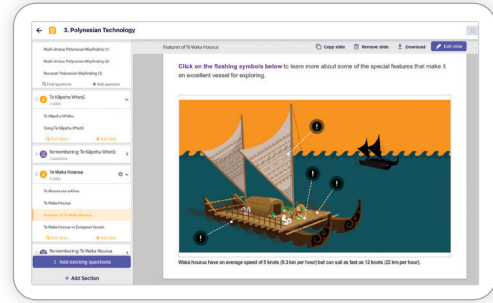

- Interactive lessons allow students to enter line-by-line working for mathematical calculations, and answer detailed questions on the platform in both numerical and written form.
- Comprehensive curriculum coverage from Year 5 to 13, complete with visual aids for statistics, geometry, number, and algebra.

## English

- Skills-based lessons focussing on literacy development, spelling lists, figurative language, and poetic devices.
- Thematic lessons with localised content by award-winning authors that delves into plot, theme, setting, characterisation, and engages students.
- Customise our lesson plans to align with your novel or film study.

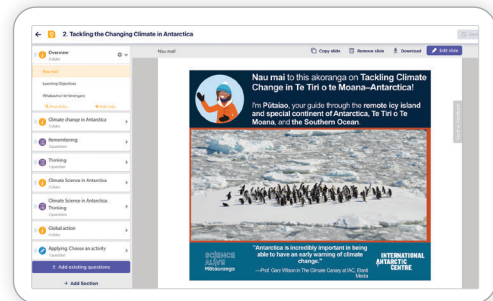

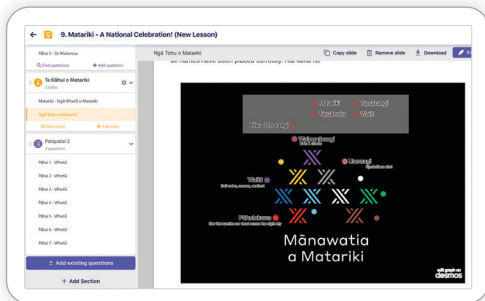

## Languages

- Vocabulary lists and an interactive multi-modal revision package to allow repetition, practice, and gamified learning.
- Aural content with native speaker recordings allows students to hear the correct pronunciation and improve their own.
- Thematic content makes learning relevant, engaging, and effective.

## Aotearoa NZs Histories

- Comprehensive coverage that guides ākonga through the journey of our nation’s history from 3,000 years ago to present day.
- ‘Being a historian’ skills lessons: A sequence that introduces ākonga to critical thinking, how to use sources, and how to consider te ao Māori in a historical context.

## Te Ao Māori

- Engaging and interactive resources, that include multimedia, quizzes, and aural clips to help with pronunciation and awareness of authentic language usage.
- Full kete of knowledge that cover Tikanga and te reo Māori in an accessible and truly effective online platform.
- Targeted courses for students, educators, and professionals that are adapted to context and provide relevant examples for everyday life.

## SCIENCE ALIVE Mātauranga

- Cross-curricular resources interwoven with mātauranga Māori that are free to all learners in Aotearoa.
- Design thinking skills, project-based learning, and rich STEM materials through a lens of mātauranga Māori.

Additional content covers the following:

Health

Social Sciences

Digitech

ESOL

# What sets Education Perfect apart from other platforms?

## Make our resources, your resources.

We know that you know your students best. That's why all of our content is fully customisable. With over 35,000 adaptable lessons, we help you to create a truly local curriculum.

## Work smarter, not harder.

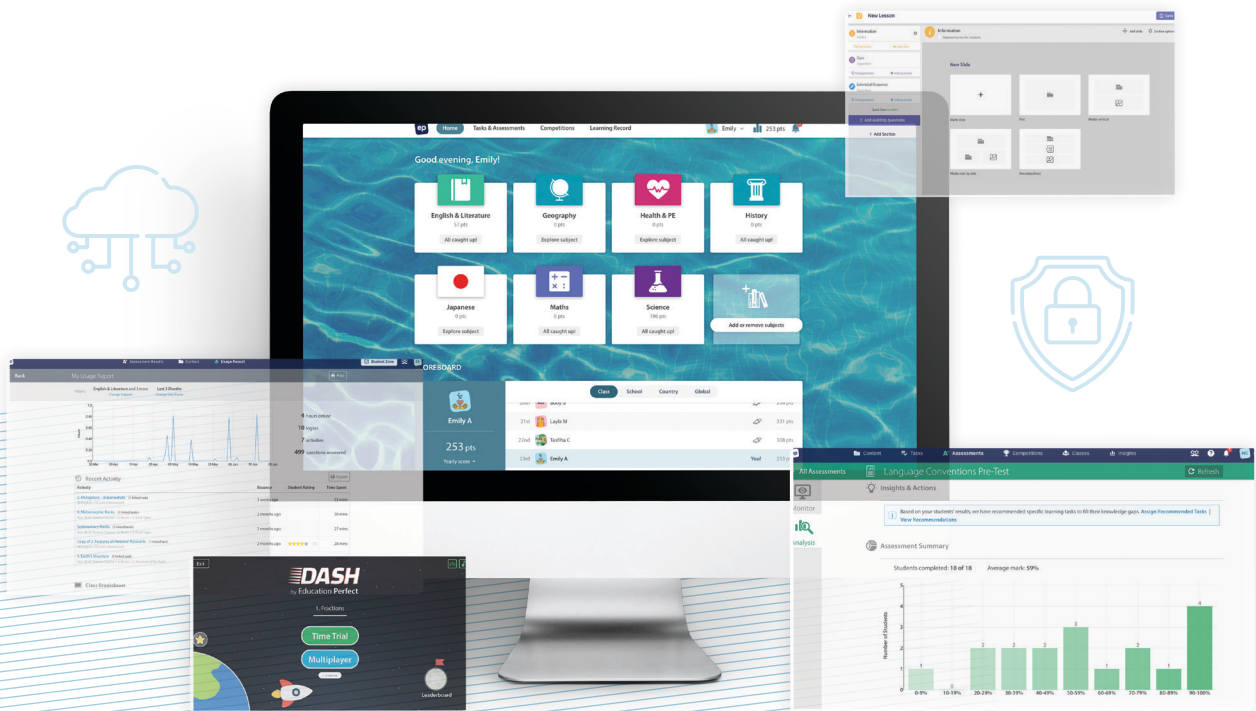

We love technology that works intelligently. That's why we made seamless integration with other key education tools a primary focus. Our job is to make learning easier, and that means no barriers.

## Learning is personalised and responsive.

We understand that your students learn in different ways, and at different rates of progress. We help find the best individual pathway for each student, and make sure it's responsive to their changing needs.

### We provide:

- Differentiated individual learning plans based on students' areas of strength and weakness.
- Live tracking of students' engagement, learning, progress, and achievement.

## World-class technology.

We're constantly reflecting, innovating, and collaborating to make sure our resources are accessible for all learners.

### We offer:

- Personalised implementation support.
- Bespoke professional development courses and events.
- Individualised teacher consultant for each school to plan your pedagogical approach to online learning.
- In-platform messaging for feedback and support.
- Cloud-based platform that is accessible from any device.
- A reliable platform built on AWS infrastructure.
- Secure data storage.

## Kōrero Tautoko

Education Perfect is a great tool to use to help set tasks for students at different levels. Also, it's great way to create formative and summative assessments by pulling different questions from different areas, which makes it so much easier. Students love EP.

### Demi Mei

*Maths/Statistics Teacher  
Avonside Girls' High School - NZ*

Education Perfect is a wonderful tool. I love how easily I can track student's progress. The suggestions for remedial tasks after students undertake an assessment is incredible – what a wonderful way to tailor learning to each student without spending hours writing ILPs.

### Richard Viskovic

*English Teacher  
Shirley Boys' High School - NZ*

I love how user friendly Education Perfect is! I did a video conference with a student, shared my Education Perfect screen on the task that they were working on, and we watched the slides together to work out where he was getting stuck. We both ended the conference feeling successful.

Thank you EP for being so easy to use, and for having a large range of informative and useful resources.

### Sheay Miller

*Foundation Advisor  
Taumarunui High School*

# Real learning. Real results.

We believe in humanising world-class technology to inspire inquisitive minds and create lifelong learners.

## World-class partners.

We invest in strategic partnerships, and never stop striving to be the best.
