

Humanities

Engage Your World

Geography • History • Economics Business Civics and Citizenship

EP Humanities provides an extensive range of engaging curriculum-aligned content across History, Geography, Economics & Business, and Civics & Citizenship.

- Cutting edge pedagogy
- Detailed diagnostic reporting
- Mastery model to promote a growth mindset
- Contextual lessons maximise relevance
- Targeted and re-mediated differentiation

An engaging and customisable Humanities teaching and learning solution which promotes student knowledge acquisition, essential skills development and critical thinking, while buying back precious time for the Humanities classroom.

“EP is a fantastic digital learning platform and I am finding it empowering and engaging. I have been impressed by the quality of resources. The Smart Lessons covering ‘Historical skills’ are outstanding, and it has the potential to extend my gifted students, as well as remaining accessible to all other students. The fact that the platform allows me to create original Smart Lessons and assessments or customise existing lessons is a very positive feature.”
