

VCE Psychology

Education Perfect (EP) is an online platform tailored for science educators. Its comprehensive learning, assessment and analytics features facilitate:

- Student engagement
- Personalised teaching and learning approaches
- Progress tracking

EP has partnered with experienced Psychology teachers to create over 100 lessons that cover all the key knowledge points outlined in the VCE Psychology study design.

Curriculum-aligned lessons

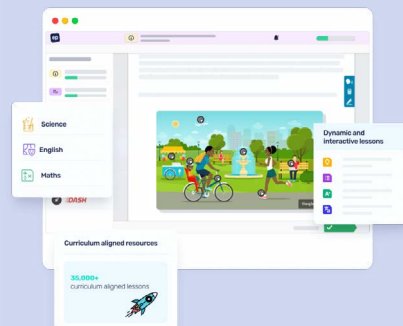

- Available lessons integrate relevant case studies, research and First Nations perspectives
- They ensure a well-rounded, in-depth understanding of the subject
- Students can test their knowledge and prepare for SACs with built-in exam-style questions

Prioritising student engagement

- Our lessons incorporate a variety of media, including: text, images, videos, and animations
- Our formative assessments are designed to be simple, user-friendly and engaging
- Our multiple question types allow teachers to gauge student understanding throughout the lesson

Support for Psychology teachers

- Teachers can tailor lessons to match individual student and requirements
- EP automatically generate insights, providing teachers with student recommendations for targeted next steps
- The platform tracks student progress towards specific learning outcomes
- EP supports flipped and blended learning methodologies, incorporating a mix of online activities and offline tasks
- Teachers can assign tasks for group and independent learning, both in-class and at home
- Teachers can assign formative and summative assessments, complete with auto-marking, instant feedback, and peer review capabilities

What EP provides for VCE Science students

- Resources in Biology, Chemistry, Physics, Psychology and Environmental Science
- Extensive resources for students in Years 7-12 outside of Science
- Adaptable resources aligned to the Victorian curriculum in English, Mathematics, Vocational Major Literacy and Numeracy, and a variety of Languages
