## **Features ESOL teachers love**

- Interactive lessons that enable students to record and compare pronunciation to native speakers'
- AI automated feedback

## Trusted engagement features

- Available in class and at home for group or independent learning
- Customisable content, so you can teach your way

## Powerful assessment capabilities

- Formative and summative assessments made easy
- Auto-marking, instant feedback and peer review functionality
- Monitor growth toward student learning outcomes

## Differentiated learning pathways

- Real-time mastery and completion reports
- Automated insights and next-step recommendations
- Set personalised paths to learning

## Accredited learning design

- Validated by Johns Hopkins University
- Certified as a Digital Promise Product
- Safer Technologies 4 Schools security certification
- Content is clearly scaffolded and follows robust pedagogical principles
- Delivers lessons and activities optimised for student success

## Unique features

- 24/7 access to enable independent learning
- Anonymous peer review opportunities for students
- Customisable content to adapt to your teaching preferences
- Targeted next steps to support student learning

## What's happening in the EP Innovation Lab

- **AI on EP:** Emerging technologies are transforming the way we teach and learn. We're looking at ways to effectively harness the power of AI to create enriching, personalised and adaptive educational experiences.
- **Enhanced Interface:** We've launched a new student interface, and exciting updates are underway to make our platform even more user-friendly and engaging for every student.
- **Improved School Account Management:** We've launched a new school account area and are working to introduce new tools and features to streamline and enhance school account management.
