

Improve Languages Learning

in Primary and Secondary Schools

Bring Language Learning to Life

EP Languages serves every student and teacher with a digital tool kit designed for learning and mastering languages. Whether you're navigating lessons, pursuing collaborative learning, or seeking valuable classroom assistance, EP provides unique, evidence-based learning experiences and unparalleled assessment capabilities all built for your curriculum.

Boost Student Outcomes for Language

Actionable Assessment

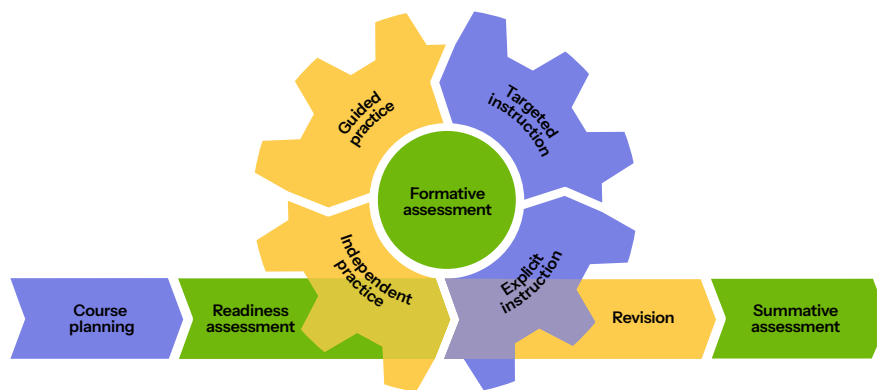

EP's auto-marked assessments make it easy for educators to understand where students are at in their learning journey, and take steps to address learning gaps.

With EP Languages, teachers can:

- Use automatically marked skill snapshot assessments to identify strengths and weaknesses at an individual, class or school level
- Access authentic communication task-based assessments for assessing production and interaction skills in practical contexts
- Track student progress against specific language skills
- Ensure targeted support for every learner with automated next-step recommendations

Individualised Instruction

Our extensive resource library supports differentiated teaching and learning practices, empowering teachers to:

- Introduce new language concepts with engaging interactive lessons
- Add new dimensions to language learning with authentic video content
- Support different learner capabilities with individual or group assignment options
- Create deeper levels of relevance and levelling with content customisation capabilities
- Let students progress at their own speed with EP's self-paced lesson structure
- Access support for both specialist and non-specialist language teachers

Purposeful Practice

With 24/7 access to an engaging student interface, students can practice the language skills they have learned in class and take an active role in their learning journey.

With EP, teachers can access:

- Topic based lessons designed for practising language learning skills in authentic contexts
- Interactive lessons that enable students to record and compare pronunciation to native speakers
- AI feedback on extended written responses to support students to develop their writing and comprehension skills
- Authentic language learning contexts, student engagement features, gamification and multimedia integrations, all designed to elevate the learning experience
- Clearly defined learning goals and success criteria to encourage student agency
- Individual progress reports, created from real-time feedback

NEW Evidence-Based Teaching and Learning Tools

You deserve an ally in the Languages classroom – one that simplifies your planning, personalises instruction, and powers real student outcomes.

That's why EP Languages brings you:

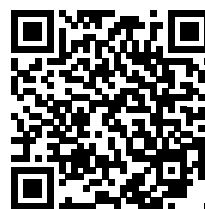

- **NEW** assessment and learning content
- **NEW** teacher tooling
- **NEW** unprecedented actionable insights
- **NEW** levels of curriculum alignment

Together, let's build stronger outcomes.
