

Improve Science Learning

in High School

Inspire the next generation of innovators

A complete teaching, learning and assessment Science solution that provides you with unparalleled data and continuous feedback, buying back time for more hands-on, inquiry-based experiences in the classroom.

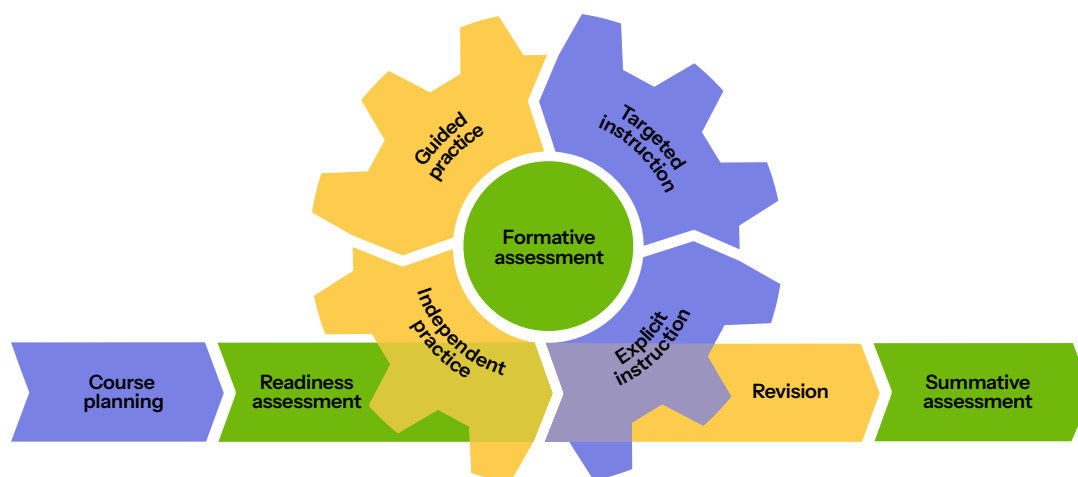

Boost Student Outcomes for Science

Actionable Assessment

EP's auto-marked assessments make it easy for educators to understand where a student is at in their learning journey, and take steps to address learning gaps.

- Track student progress against specific curriculum outcomes
- Identify strengths and weaknesses at an individual, class or school level
- Ensure targeted support for each learner with automated next step recommendations

Individualised Instruction

Our deep library of learning resources and activities support differentiated teaching and learning practices.

- Support different learner capabilities with individual or group assignment options
- Create deeper levels of relevance and levelling with content customisation capabilities
- Let students progress at their own speed with EP's self-paced lesson structure

Purposeful Practice

With 24/7 access to an engaging student platform, students can practice the skills they have learned in class and take an active role in their learning journey.

- Elevate the learning experience with student engagement features, gamification and multimedia integrations
- Empower student agency with clearly defined learning goals and success criteria
- Monitor progress in real time, providing immediate actionable feedback
- Speed up the feedback cycle to propel learning with EP's powerful AI Feedback Tool

NEW Evidence-Based Teaching and Learning Tools

You deserve an ally in the classroom to help drive real student outcomes. That's why we're so excited to share our new chapter for Science, reimagining what Science teaching support should look like, full of:

- **NEW** assessment and learning content
- **NEW** teacher tooling
- **NEW** unprecedented actionable insights
- **NEW** levels of curriculum alignment

Together, let's build stronger outcomes.
