

Improve Mathematics Learning

in High School

Inspire, intrigue and engage your students

Education Perfect (EP) is a comprehensive digital learning platform designed to enhance mathematics education in high schools. It provides teachers with tools and resources to engage students, track progress, and deliver individualised instruction.

Actionable Assessment

EP's auto-marked assessments make it easy for educators to understand where a student is at in their learning journey, and take steps to address learning gaps.

- Track student progress against specific curriculum outcomes
- Identify strengths and weaknesses at an individual, class or school level
- Ensure targeted support for each learner with automated next step recommendations

Individualised Instruction

Our deep library of learning resources and activities support differentiated teaching and learning practices.

- Support different learner capabilities with individual or group assignment options
- Create deeper levels of relevance and levelling with content customisation capabilities
- Let students progress at their own speed with EP's self-paced lesson structure

Purposeful Practice

With 24/7 access to an engaging student platform, students can practice the skills they have learned in class and take an active role in their learning journey.

- Elevate the learning experience with student engagement features, gamification and multimedia integrations.
- Empower student agency with clearly defined learning goals and success criteria
- Monitor progress in real time, providing immediate actionable feedback

Comprehensive curriculum coverage

- Extensive, meticulous curriculum coverage for Years 5-10
- Revision practice for NCEA Numeracy co-requisite
- Years 11-13 Maths courses covering a wide range of topics with depth and clarity
- Aotearoa-specific learning contexts and practice assessment tasks, interwoven with mātauranga Māori
- New Year 11 resources to support your students, whether you're following the new NCEA Level 1 or your own pathway engaging visual aids, and videos, bringing Maths to life
